

Vidiu MAC Address Access

To obtain the MAC Address:

Select the MENU button once the unit is through the start-up process.

Scroll down and select NETWORK SETTINGS.

Select WIRED (assuming you are hardwired to the network)

Select INFO

Scroll down to see all settings.

NOTE: You can also access the Vidiu setting by typing the IP address on a browser connected to the same LAN. This will call up the browser interface of the Vidiu.
